METALLURGIA

INDEX TO VOLUME XXVIII

MAY 1943 — OCTOBER 1943

A

	Page
Activities of the Iron and Steel Industrial Research Council	283–285
Adhesion of Sliding Metals—Ploughing and	197
Ageing of Copper-Aluminium Alloys	278
Allied Prospects Brighter	155
Alloys of Aluminium and Manganese, Silicon and Iron. By H. W. L. Phillips, M.A.	171–175
Alloys of Aluminium with Manganese, Silicon and Iron. By H. W. L. Phillips, M.A. and Major P. C. Varley, M.A.	215–218
Alloys of Aluminium with Magnesium, Manganese, Zinc in the Range 0–5% Magnesium, 0–2% Manganese, 0–8% Zinc—Constitution of	291
Alloy Steels for War Purposes—Carbon and	123–126
Alloy Steels—Relative Effect of Elements on	138
Aluminium Alloys—Heat-treatment of Wrought	22–23
Aluminium Alloys — Induction Furnaces for Melting. By M. Tama	47–48
Aluminium Alloy Ingots—Direct Cooling of	249–250
Aluminium Alloy Parts—Bath for Removing Welding Flux for. By P. M. Craig	138
Aluminium in Diesel Locomotives	187–188
Aluminium - Manganese - Silicon-Iron—Quaternary System. By H. W. L. Phillips, M.A., and Major P. C. Varley, M.A.	217
Aluminium - Silicon - Iron — Ternary System. By H. W. L. Phillips, M.A. and Major P. C. Varley, M.A.	215
Aluminium — Rolled, Structure Revealed by X-Rays. By E. E. Spillett, B.Sc.	29–36
Analysis of English Fluorspars and their Associated Minerals. By G. H. Osborn	261–264
Analysis—Microchemical	303–304
Applications—Cerium and some of its. By Leo David	264–265
Atmospheric Corrosion—Position of Field Tests on. By J. C. Hudson, D.Sc.	219–224
Austenitic Grain Growth in Medium Carbon Steels. By J. W. Whiteley, F.I.C.	287–290

B

	Page
Basic Open-hearth Steel Practice at an Australian Plant. By R. L. Knight	43–46 and 77–80
Basic Open-hearth Tilting Furnaces: Maintenance of the Furnace Linings. By A. Jackson	227
Bath for Removing Welding Flux for Aluminium Alloy Parts. By P. M. Craig	138
Bearings by Powder Metallurgy: Copper-Lead. By W. D. Jones, M.Eng., Ph.D.	255–260
Bimetal Battery Can	251
Binary Magnesium-Aluminium Alloys: An Investigation of the Effects of Precipitation-treatment. By F. A. Fox, M.Sc. and E. Lardner, B.Sc.	293–298
Boron and Titanium in Heat-treated Steel. By G. F. Comstock	199–200
Bottlenecks: Industrial	2
Brass and Copper Industry: Canadian	292
Brass Strip (70–30): Structural Changes Effected by Cold-rolling and Annealing. By M. Cook, D.Sc., Ph.D., and T. Ll. Richards, B.Sc., Ph.D.	288–231
Brighter Prospects: Allied	155
British Cast Iron Research Association New Laboratories	67–70
British Chemical Standard Manganese-Molybdenum Steel	214
British Non-ferrous Metals Research Association. By G. L. Bailey, M.Sc.	280–282
British Resources of Steel Moulding Sands	182
Brittle Constituent of the Iron-Chromium System	225–227
Bronze Bearings: Oil Retaining	107

C

	Page
Cadmium Alloys and Ternary Alloys Containing Cadmium. By Dr. D. P. Einerl	53–61
Canadians Brass and Copper Industry	292
Carbon and Alloy Steels for War Purposes	123–126
Casting—Silicon-Bronze. By E. Portman	85–86
Cast-iron Borings—Cupola Melting. By S. L. Feduska	49–50
Cast Iron—Spectrographic Analysis. By F. B. Ling, J. McPheat and J. Arnott, F.I.C.	149–150

Page

Cerium and Some of its Applications. By Leo David 264–265
Chromium-Manganese Stainless Steels. By J. M. Parks .. 84–85
Cobalt Electrically Refined. By C. S. Oldack and R. Landau 200
Cobalt—Uses and Substitutes .. 126
Coke—Metallurgical. By R. J. Barritt, M.A. 267–272
Continuous Production of Manganese Steel Castings from a Tropenas Converter. By L. W. Bolton and J. Hill 152
Constitution of Alloys of Aluminium and Manganese, Silicon and Iron. By W. H. L. Phillips, M.A. 171–175
Constitution of Magnesium-Manganese-Zinc-Aluminium Alloys in the range 0–5% Magnesium, 0–2% Manganese, 0–8% Zinc 291
Conservation in Nickel in Electric-resistance Alloys 95–98
Converting Furnaces from Oil to Coal Firing. By R. M. Hardgrove 305–307
Converter Practice—Tropenas. By E. G. Pigott 81–83 and 139–143
Copper-Antimony-Nickel Gear Alloy—Report 149
Copper-Lead Bearings by Powder Metallurgy. By W. D. Jones, M.Eng., Ph.D. 255–260
Copper Strip — Directional Characteristics of Single-texture Structure. By Dr. M. Cook and T. Ll. Richards, B.Sc. 87–93
Cooling of Steel Ingots—Solidification and. By E. F. Law, A.R.S.M. and V. Harbord, A.R.S.M. 111–114
Corrosion of Metals—Thermodynamic Considerations. By Prof. J. C. Warner 61–66
Corrosion Resistance — New Phosphate Coatings. By George Jernstedt 290–291
Corrosion by Sea Water. By J. W. Donaldson, D.Sc. .. 163–170
Corrosion Sub-Committee—First Report of the Marine 37–41
Creep Test—100,000 Hour. By E. L. Robinson 20–21
Cupola Melting of Cast-iron Borings. By S. L. Fedoska 49–50
Cyanisation—Gas 272

D

Diesel Locomotives—Aluminium in 187–188
Diesel Railway Locomotives—Future Possibilities. By P. B. Jackson 187–188
Direct Cooling Process for Casting Aluminium Alloy Ingots 249–250
Directional Characteristics of Single-texture Structure Copper Strip. By Dr. M. Cook and T. Ll. Richards, B.Sc. .. 87–93
Dolomite — Magnesium from Canadian 52

E

Education and Training of Physicists 100
Education—Industry and .. 151
Effect of Casting Conditions on the Properties of Magnesium Die-cast Alloy. By Prof. W. R. D. Jones, D.Sc. 145–146

Page

Effects and Prevention of Surface Corrosion of Aluminium Alloys. By D. H. Rudorff .. 157–161
Effects of Precipitation-treatment on Binary Magnesium-Aluminium Alloys. By F. A. Fox, M.Sc. and E. Lardner, B.Sc. 293–298
Electric-Arc Preparation for Metal-spraying. By W. E. Ballard, F.I.C. 105–107
Electrically Refined Cobalt. By C. S. Oldach and R. Landau 200
Electric-resistance Alloys—Conservation in Nickel 95–98
Electrodepositors Technical Society 72
Electrodeposits—Thickness Testing. By A. W. Wallbank .. 94
Electrode Potentials of Metals 114
Elektron AM 503—Films of Increased Protective Value. By C. J. Bushrod 36
Embrittlement of Ingot Iron and Low-carbon Steels. By B. Jones, D.Sc., F.I.C. 13–19
Embrittlement—Temper Brittleness and Long-time Heat. By D. W. Rudorff 24–28
English Fluorspars and their Associated Minerals—Analysis of. By G. H. Osborn 261–264
Expansion of Bismuth-Lead-Tin-Cadmium Alloys on Cooling after Solidification. By L. E. Benson, M.Sc. and M. B. Coyle, M.A. 115–116

F

Fast Cargo Ships 1–2
Female Assistants—Training for Steelworks Laboratories. By M. B. Thompson, Ph.D., B.Sc. and R. Belcher, F.I.C. 101–104
Field Tests on Atmospheric Corrosion—Present Position. By J. C. Hudson, D.Sc. 219–224
Films of Increased Protective Value on Elektron A.M. 503. By C. J. Rushrod 36
Films on Metals—Laws Governing the Growth. By U. R. Evans, M.A., D.Sc. 133–135
Fire Code for Magnesium Powder Production 277
First Report of the Marine Corrosion Sub-Committee 37–41
Fluorspars and their Associated Minerals—Analysis of English. By G. H. Osborn 261–264
Fourth Report of the Oxygen Sub-Committee 232–236
Furnaces—Converting from Oil to Coal Firing. By R. M. Hardgrove 305–307
Furnaces—Gas and Air Flow in Gas Fired 272
Furnaces—Melting Aluminium Alloys in Induction. By M. Tama 47–48
Furnace Linings in Large Basic Open-hearth Tilting Furnaces —Maintenance of. By A. Jackson 227
Future Possibilities of Diesel Railway Locomotives. By P. B. Jackson 187–188

G

Gallium—Some of its Properties. By L. Sanderson 247–248
Gas and Air Flow in Gas-fired Furnaces 266

Page

Gas-cutting Process and its Effect on Steel. By T. J. Palmer, A.M.Inst.W. 73–76 and 108–110
Gas Cyanisation 272
Grain Size in Tin Alloys 50
Graphite and Some of its Applications. By L. Sanderson .. 185–186
Graphite Rod Melting Furnaces 186
Grey Iron Foundries—Meeting the Raw Material Supply in .. 150–151
Grinding Characteristics of Mineral Products 175
Growth of Films on Metals—Laws Governing. By U. R. Evans, M.A., D.Sc. 133–135

H

Hardness and Wear Resistance. By J. R. Spence 183–184
Hardness Testing of Metals and Alloys. By J. W. Donaldson, D.Sc. 3–9
Heat-transfer in Batch Heat-treatment of Metallic Strip. By O. G. Pamely-Evans, B.Sc. 177–179
Heat-treatment of Wrought Aluminium Alloys 22–23
Heat-treated Steel—Boron and and Titanium in. By G. F. Comstock 199–200
Heat-treated 18-4-1 Steel—Surface Structures and Chemistry of 286
Heat Utilisation in the Steelworks. By R. J. Barritt, M.A. 211–214
Heterogeneity of Steel Ingots—Fourth Report of the Oxygen Sub-Committee 232–236
High Production Must Continue 99
High-speed Steel—Heat-treatment. By A. Linley, B.Met. 127–132
High-speed Steel—Tempering of Two High-carbon, High-vanadium 132
High-speed Steel—Vanadium in Low Alloy 236
High Temperature Resistivity Measurements on Compressed Granular Refractory Materials 80
Hot Tear Formation in Steel Castings. By C. W. Brigg 151–152
100,000-hour Creep Test. By E. L. Robinson 20–21

I

Impact Strength of Ordinary and Special Steels at Sub-Zero Temperatures 151
Imperial Institutes 50th Anniversary 2
Improved Temperature Regulators 298
Indicating Crayons, Temperature 23
Industrial Bottlenecks 2
Industrial Research 253
Industrial Research Council .. 283–285
Industry and Education 151
Induction Furnaces for Melting Aluminium Alloys. By M. Tama 47–48
Ingot Iron and Low Carbon Steels—Embrittlement. By B. Jones, D.Sc., F.I.C. 13–19
Ingots—Direct Cooling Process for Casting Aluminium Alloys 249–250
Ingots—Fourth Report of Oxygen Sub-Committee 232–236
Inspection Problems 86
Inspection Technique — Rapid Gamma-Ray. By R. C. Woods 136–137

Page

Institute of British Foundrymen 46 and 144–152
Investigation of the Effects of Precipitation-treatment on Binary Magnesium — Aluminium Alloys. By F. A. Fox, M.Sc. and E. Lardner, B.Sc. 293–298
Iron and Steel Institute Meeting 37–38
Iron and Steel Institute 285–286
Iron-Chromium System—Brittle Constituent 225–227

K

Killed Low-carbon Steel : Strain-Ageing 239–246

L

Laboratories of the British Cast Iron Research Association .. 67–70
Laws Governing the Growth of Films on Metals. By U. R. Evans, M.A., D.Sc. 133–135
Light Alloy Castings—Method of Correlating Practice and Quality. By H. C. Warrington 146–149
Lighting for the Inspection of Precious Metals 170
Locomotives — Aluminium in Diesel 187–188
London Metal Exchange 254
Low-carbon Steels—Embrittlement of Ingot Iron and. By B. Jones, D.Sc., F.I.C. 13–19

M

Maintenance of the Furnace Linings in Large Basic Open-hearth Tilting Furnaces. By A. Jackson 227
Magnesium Alloys—Sand-cast Plates for the Radiographic Assessment of Tendency to Microporosity 197
Magnesium-Aluminium Alloys—An Investigation of the Effects of Precipitation Treatment on Binary. By F. A. Fox, M.Sc., and E. Lardner, B.Sc. 293–298
Magnesium from Canadian Dolomite 52
Magnesium Powder Production —Fire Code for 277
Magnetic Skimmer 116
Manganese from the Gold Coast 292
Manganese-Molybdenum Steel—British Chemical Standard .. 214
Manganese Steel Castings—Continuous Production from a Tropenas Converter. By L. W. Bolton and J. Hill 152
Manufacture of Non-ferrous Seamless Tubes. By Gilbert Evans 10–12
Marine Corrosion Sub-Committee —First Report 37–41
Mechanical Properties of the Products of Powder Metallurgy. By F. Y. Lenel .. 189–192
Meeting the Raw Materials Supply Position in Grey Iron Foundries 150–151
Method of Correlating Practice and Quality of Light Alloy Castings. By H. C. Warrington 146–149
Melting (Cupola) of Cast-iron Borings. By S. L. Feduska .. 49–50
Mercury—Solubility of Metals in. By C. H. Prescott 70

Page

Metallic Strip—Heat-transfer in Batch Heat-treatment. By O. G. Pamely-Evans, B.Sc. .. 177–179
Metallurgical Coke. By R. J. Barritt, M.A. 267–272
Metallurgical Institutes 202
Metals and Alloys for War Purposes—Non-ferrous 207–210
Metal-spraying — Electric Arc Preparation for. By W. E. Ballard, F.I.C., A.I.Mech.E. 105–107
Microchemical Analysis 303–304
Micro-testing—Progress in. By D. W. Rudorff 273–277
Midland Laboratory Guild .. 50
Mild Steel and Wrought Iron Pipes—Note on Some Precipitation Effects Observed. By T. H. Schofield, M.Sc. 180–181
Mineral Products — Grinding Characteristics of 175
Monazite—The Mineral 71–72
Monel Metal—Welding Flux for. By W. M. Halliday 251

N

National Fuel Economy 66
New Bimetal Battery Can .. 251
New Laboratories of the British Cast Iron Research Association 67–70
New Phosphate Coatings with Unusual Corrosion Resistance. By George Jernstedt 290–291
New Spot Welder Model 48
New Swedish Institute for Metallographic Research 28
Nickel in Electric-resistance Alloys : Conservation in .. 95–98
Nickel-Molybdenum System .. 231
Non-ferrous Metals and Alloys for War Purposes 207–210
Non-ferrous Metals Research Association : British. By G. L. Bailey, M.Sc. 280–282
Non-ferrous Seamless Tubes : Manufacture of. By Gilbert Evans 10–12
Note on Sand-cast Plates for the Radiographic Assessment of Tendency to Microporosity in Magnesium Alloys 197
Note on Some Precipitation Effects Observed in Mild Steel and Wrought-iron Pipes. By T. H. Schofield, M.Sc. 180–181

O

Oil-retaining Bronze Bearings .. 107
Oil to Coal Firing : Converting Furnaces from. By R. M. Hardgrove 305–307
Open-hearth Slag Control for Manganese. By C. F. Quest, A. E. Martin and T. L. Joseph 137–138
Open-hearth Slags : Physical Chemistry of. By Dr. J. White 237–238
Open-hearth Steel Practice at an Australian Plant : Review of Basic. By R. L. Knight .. 42–46
Open-hearth Tilting Furnaces : Maintenance of the Furnace Linings in Large Basic. By A. Jackson 227
Organisation of Research Associations 279–280
Outworking 202
Oxygen Sub-Committee of the Committee on the Heterogeneity of Steel Ingots 232–236

Page

P

Phosphate Coatings with Unusual Corrosion Resistance. By George Jernstedt 290–291
Photo-electric Cells for Temperature Measurement and Control. By M. E. Foyle 162
Photography as an Aid to Scientific Work 110
Physical Chemistry of Open-hearth Slags. By Dr. F. White 237–238
Plan to Re-establish Trade and Industry 51–52
Ploughing and Adhesion of Sliding Metals 197
Powder Metallurgy : Copper-Lead Bearing. By W. D. Jones, M.Eng., Ph.D. 255–260
Powder Metallurgy : Mechanical Properties of the Products of. By F. V. Lenel 189–192
Preparation for Metal-spraying : Electric-Arc. By W. E. Ballard, F.I.C. 105–107
Precipitation Effects Observed in Mild-steel and Wrought-iron Pipes. By T. H. Schofield, M.Sc. 180–181
Precipitation - treatment on Binary Magnesium-Aluminium Alloys : an Investigation of the Effects. By F. A. Fox, M.Sc. and E. L. Lardner, B.Sc. 293–298
Present Position of Field Tests on Atmospheric Corrosion. By F. C. Hudson, D.Sc. 219–224
Production Changes 201
Progress in Micro-testing. By D. W. Rudorff 273–277
Production must Continue : High 99
Protective Films on Elektron A.M. 503. By C. J. Bushrod 36

Q

Quaternary System : Aluminium - Manganese - Silicon - Iron. By H. W. L. Phillips, M.A., and Major P. C. Varley, M.A. 217

R

Radiographic Assessment of Tendency to Microporosity of Magnesium Alloys : Note on Sand-cast Plates for 197
Radiography of Metals and Alloys 299–302
Rapid Gamma-Ray Inspection Technique. By R. C. Woods 136–137
Relative Effect of Elements on Alloy Steels 138
Research : Activities of the Iron and Steel Industrial Research Council 283–285
Research Associations : Organisation of 279–280
Research : British Non-ferrous Metals Research Association. By G. L. Bailey, M.Sc. 280–282
Research : Industrial 253
Research : in the Ferrous and Non-ferrous Industries 279–280
Resistivity Measurements on Compressed Granular Refractory Materials : High Temperature 80
Report on Copper-Antimony-Nickel Gear Alloy 149

Page

Review of Basic Open-hearth Steel Practice at an Australian Plant. By R. L. Knight .. 42–46 and 77–80
Rivet Sorting Machine 72
Rolled and Annealed Aluminium: Structure as Revealed by X-Rays. By E. E. Spillett, B.Sc. 29–36
Royal Aeronautical Society .. 76
Rolling of Copper 188

S

Scientific Work: Photography as an Aid to 110
Seamless Tubes: Manufacture of Non-ferrous. By Gilbert Evans 10–12
Seam Welding with a Carbon Arc. By R. A. Tobler 179
Sea-water: Corrosion by. By T. J. Donaldson, D.Sc. 163–170
Shipping and the War 254
Ships: Fast Cargo 1
Sigma Phase: The Iron-Chromium System 225–227
Significance of Tensile and other Mechanical Test Properties of Metals. By Dr. H. O'Neill .. 156
Silicon-Bronze Castings. By E. Portman 85–86
Silver in Mercury: On the Solubility of. By D. R. Hudson, B.Sc., Ph.D. 203–206
Sifbronze Welding 86
Slag Control for Manganese: Open Hearth. By C. F. Quest, A. E. Martin and T. L. Joseph 137–138
Solidification and Cooling of Steel Ingots. By E. F. Law, A.R.S.M. and Vernon Harbord, A.R.S.M. 111–114
Solubility of Metals in Mercury. By E. E. Prescott 70
Solubility of Silver in Mercury. By D. R. Hudson, B.Sc., Ph.D. 203–206
Some Tensile Shock Properties of Carbon Steels 266
Specifications for Non-ferrous Metals and Alloys — War Emergency 207–210
Spectrographic Analysis of Cast Iron. By F. B. Ling, J. McPheat and J. Arnott, F.I.C. 149–150
Spot Welder, New Model 48
Stainless Irons: Chromium-Manganese. By J. M. Parks 84–85
Steel Moulding Sands: British Resources of 182
Steel: High-speed: Heat-treatment of. By A. Linley, B.Met. 127–132
Steel Castings: Hot Tear Formation in. By C. W. Brigg .. 151–152
Steel at Sub-zero Temperatures: Impact Strength of Ordinary and Special 246
Steel: Effect of Gas-cutting Process. By T. J. Palmer, A.M Inst. W. .. 73–76 and 108–110
Steelworks: Heat Utilisation in the. By R. J. Barritt, M.A. 211–214
Steel At War 117–123
Strains-ageing of Killed Low Carbon Steel 239–246

Page

Structural Changes Effected in 70–30 Brass Strip by Cold-rolling and Annealing. By M. Cook, D.Sc., Ph.D. and T. L. Richards, B.Sc., Ph.D. 228–231
Structure of Rolled and Annealed Aluminium as Revealed by X-Rays. By E. E. Spillett, B.Sc... 29–36
Study of Austenitic Grain Growth in Medium-carbon Steels. By J. H. Whiteley, F.I.C. 287–290
Surface Structure and Chemistry of Heat-treated 18-4-1 Steel.. 286
Swedish Institute for Metallographic Research 28

T

Temperature Regulators: Improved 298
Temperature Measurement and Control: Photo-electric Calls for. By M. E. Foyle 162
Temperature Indicating Crayons 23
Temper Brittleness and Long-time Heat-embrittlement. By D. W. Rudorff.. 24–28
Tensile and Other Mechanical Test-properties of Metals: Significance of. By Dr. H. O'Neill 156
Tensile Shock Properties of Carbon Steels 266
Testing of Metals and Alloys: Hardness. By J. W. Donaldson, D.Sc... 3–9
Ternary System—Aluminium-Silicon-Iron. By W. H. L. Phillips, M.A. and Major P. C. Yardley, M.A. 215
Ternary Cadmium Alloys and Ternary Alloys Containing Cadmium. By Dr. D. P. Einerl 53–61
Thermodynamic Considerations in the Corrosion of Metals. By Prof. J. C. Warner 61–66
Thermodynamical Theory of Restoration Phenomena in the Ageing of Copper-Aluminium Alloys 278
Thickness Testing of Electrodeposits. By A. W. Wallbank 94
Tin Alloys: Grain Size in 50
Titanium and Boron in Heat-treated Steel. By G. F. Comstock 199–200
Trade and Industry: Plan to Re-establish 51–52
Training of Physicists: Education and 72
Training of Female Assistants for Steel-works Laboratories. By M. B. Thompson, Ph.D., B.Sc. and R. Belcher, F.I.C... 101–104
Transformer Welding Equipment 86
Tropenas Converter: Continuous Production of Manganese Steel Castings from a. By L. W. Bolton and J. Hill .. 152
Tropenas Converter Practice. By E. G. Pigott 81–83 and 139–143

Page

U

Use of Inhibitors for Aluminium Chemical Equipment. By R. B. Mears and G. G. Eldredge 193–197
Uses and Substitutes for Cobalt 126

V

Vanadium in Low-alloy High-speed Steels 236

W

War Emergency Specifications for Non-ferrous Metals and Alloys 207–210
War-time Steel Foundry—Some Problems and Developments. By E. D. Wells and A. Johnson 152–154
Wear Resistance: Hardness and By J. R. Spencer 183–184
Welded Ship Withstands Severe Damage 260
Welding Flux for Aluminium Alloy Parts Bath for Removing. By P. M. Craig .. 138
Welding Flux for Monel Metal. By W. M. Halliday 251
Welding with a Carbon Arc: Seam. By R. A. Tobler .. 179
Welding Equipment — Transformer 86
Woman in Industry 100
Wrought Aluminium Alloys: Heat-treatment of 22–23

X

X-Ray Analysis in Industry .. 21

Z

Zinc Oxide—Maximum Prices .. 23

CORRESPONDENCE

The Place of the Scientist in the Community. By R. H. Pickard, A. Findlay and W. L. Bragg 154
The Training of Female Assistants for Steelworks Laboratories. By B. W. Bethley, F.I.C., T. Swindow, D. Met. and A. S. Lockhart 198
